Respondent ID	Collector ID	Start Date	End Date	IP Address	What Sunday School Class and / or Groups do you participate in?	On a scale from 1-10, with 1 being worst and 10 being best, how would you rate our Sunday School / Group spaces, environments, and furnishings?	Would you consider the space your group uses to be larger than needed, adequately sized, or too small for your group's purposes?	What one change or improvement to our Sunday School facilities could we make that you think would have the most impact on helping us achieve our mission, vision and strategic goals at OUMC?	With trends and projections for the area surrounding OUMC being for 8-10% growth in the next 5 years, what Sunday School related improvements should be made to accommodate that growth?	Are there things your group now lacks in terms of space or furnishings which limit the group's ability to do its ministry? If so, what?	What changes or improvements would you like to see be made to your group's space?	What opportunities in ministry will impact your space needs and how?	In looking to the future, what changes do you anticipate will impact your group's needs and how?	If money were no object, what improvements would you like to see made to your Sunday School Facilities at OUMC?	What other thoughts would you like to share on how we could improve our facilities here at OUMC?

Not sure	If the projected growth rate for Ooltewah occurs, then I imagine our facilities will be rented out more - so I guess the impact will be availability of space.	A room for the choir and a couple more classrooms.	Accountability for outside groups using our facility, better security for our campus with individuals in charge being more responsible for locking up, the parking lot being secured so people would stop driving through at 40 miles an hour; it's an accident waiting to happen.

If we had a room that would accommodate 40-60 people with tables and Smart TV, other ministries could use the same room i.e. Alpha Circle, other small groups....	We are so limited by space that it is difficult to grow but we are growing. We have had 3 new couples join since the first of the year. We are almost out of space to put chairs around the wall.	I do not think it would be feasible to add to our present space. We need a room that would accommodate 40-60 people that other groups could use. I think decoration, Christian sayings, verses, pictures, accent wall, Smaller table, but nice. Instead of a desk, how about a bookshelf that holds the TV.	Obvious answer is more rooms, a sunday school group should be no greater than 20 -30 people, so that 15 may show on a given Sunday. If we grow larger, we need to split. To split means more rooms.	Not really, we get by with what we have.	Decoration, ceiling fan, shelves for books, closed cabinets, that we can collect items for ministry by the Sunday school group, or other groups that use the space. These should be lockable by the group. For instance, we use this space for storage of Angel Tree stuff, wrapping paper boxes, items that we can buy after Christmas cheap, or collect over the course of 12 months. Maybe serving church wide refreshments i.e. coffee, bagels, pastries before people break for their actual Sunday School class. A good opportunity for God's people to interact with one another. A great time for new visitors to meet people and get plugged in.	Right now we do not have adequate space to accommodate many more folks that want to attend a Sunday School class. I have had one class in particular complaining to me that they are busting at the seams and need more room.	Not really. To do more ministry?.....I believe there are plenty of opportunities to do ministry outside our church campus. First off we need to know what "doing ministry" looks like. We need vision and a plan.	To my groups space,.....none. Church-wide,.....we need more Sunday School Space!	More members. Our space is adequate and we have some room for growth. Actually compared to the rest of the church we are in pretty good shape.	Well, if we are all doing our jobs (looking for opportunities to invite people to our church) we will eventually run out of room. This area has been growing like crazy for years and we are not capitalizing on the opportunity.	None necessarily to my class, we need more Sunday School Class rooms, educational room for children's classes, room for small children and infants. I also understand that our Choir don't even have a choir room any more and they are forced to dress in the hall way.	I think right now (as you can probably already figure out) you have to make sure that people are getting fed,(spiritually) Remember what it says in the Bible, "The harvest is plenty but the workers are few". To experience the growth that we are ALL looking for,.....We have to make sure that the sheep are getting fed.
35	10010058970.00	21077883	5/7/18 15:15	5/7/18 15:47	184.174.169.17	Upper Room SS class, Wednesday night classes, choir	7	It is fine for our group.	The chairs in the conference room in the admin. building need to be updated. The library is housed in that room. I don't believe many people use it because of it's location. It needs a more accessible location.	There would need to be more space for adults and children on Sunday morning. The space could be better utilized by offering small groups at different times during the week other than Wed. night. Maybe having a couple of buildings out side the normal classrooms could be a solution. Then a staff member would not need to be present.	Nothing I can think of right now.	Replacement of the chairs. Smaller tables to better utilize the space.	If we have an influx of people we could quickly out grow our space. There needs to be space and programs for their children.	Growth through an increase in people attending Sunday morning in both services.	More storage space so my class could have a place to store things if we needed it. Right now the UMW and Alpha circle take up a lot of the cabinet space. Maybe a space some where designed specifically for their needs to free up space for others.	As someone who has, at times, attended the 9:30 service I would love to see the pews in the sanctuary updated. The seat needs more padding. The back is very uncomfortable. Maybe a strip of cushion for lower lumbar support. The carpet and parquet floor need replacing. More space for the choir. Last Christmas we barely had enough room. Restrooms in the CLC need to be renovated.

On well attended days we are at capacity	Quality flex space that would allow reconfiguration of classroom space to address classes that are increasing in size, but do not consistently max out their space. Not referring to thin folding partitions. The dividing walls need to maintain a level of sound insulation between shared spaces equivalent to stud walls with sound deadening insulation as we now have.	It appears that our area is experiencing more growth in the younger generations than with the Boomer's. Facilities focus should be heavily weighted toward serving the spiritual and physical needs of our primary growth opportunities .	As stated previously, a flex space arrangement could be helpful. If you apply the 80% rule, the Watts class cannot grow within the present constraints.	See # 4. Also, a simpler to use audio visual system would reduce the amount of time required to get the lessons underway. We often have difficulties with the system following its use by another group. The ability to restore operation through some type of "restore default" command would help tremendously on days when some of our more technically savvy folks are not present.	It is not so much new ministry opportunities in the church at large as it is being responsive to an increasing number of participants in our small group.	For some of our group, the proximity of the classroom to the sanctuary is beginning to present some problems. Mobility tends to decrease with age, and we are aging. The Watts classroom is as far as you can get from the sanctuary and still remain in the building. Let me be clear. No one is complaining, just saying it will be a problem that could be planned for.	I would like to see a new but attached building near the CLC, dedicated to youth and young family ministry development followed by re-purposing the space currently used for Children's ministry and KDO programs to provide expanded Adult education space.	Please communicate the decisions that are made based upon these surveys in crystal clear terms with regard to the ministries served and the long term financial impact on the church.

47	WRITTEN					Watts class	9.5	Watts class is often very fully seated. Can get very warm.	My observation is folks seem to be pretty spread out selecting various classes depending on the times the with to be in class-lot of good feeling is passes along in hallway as people pass one another.	I suppose one could build up over present classrooms if possible.	Perhaps some of the AV Equip could be spaced to make access easier for leaders of groups. High shelf TV good but not enough head room for leaders. TV Carts are bulky to move around.	A bit more space for people in wheelchairs and cane walkers.	Perhaps having leaders educated as to how to use equipment presently available.clouds and things like that that the older folks don't know how to assist their leaders.
